(in 543 reviews) Dropoff was fast and easy (in 436 reviews) Staff friendly and helpful (in 5532 reviews) There was no available car (in 368 reviews) Worst car rental experience ever (at 3,805 Cons reviews) Worst car rental experience ever (in 3,860 reviews) review from: Really no problem with enterprise, but when I rented, I was under the impression that the pickup truck was not at the airport in the city center and would have had to get there. With delays on our flight we weren't going to be able to do it there, closing forcing us to change our rent to the airport costing us a lot more and being very uncomfortable. Much better communication is required. Review from professionals: As the problem of the crown virus outbreak grew while vacationing in Florida we decided to return to Chicago rather than get on our return flight. We were very impressed with the staff of the Enterprise in Sarasota. They were very pleasant and upbeat – and with additional fees that were abolished for one way - our trip home, though long, was very comfortable. Thank you Enterprise for easing our anxiety to come home at a very difficult time! Review from Professionals: The staff were awesome. Answered all my questions, Cons: I wasn't happy The quality of the car. The low pressure in the tires light came on many times. In addition, the car will pull left, even with the tires aired properly. Review from cons: We reserved a standard SUV and recharge got a compact SUV. Then they found out that they didn't distinguish between two sizes. Review from professionals: It was quick, friendly and painless. Back and forth. Cons: They could have taken me to Orlando. It's a joke! Review from Professionals: Both the woman who signed us up and the person who signed us up were personal, friendly and effective. Cons: I can't think of anything. Review from Professionals: Usually don't do reviews, but I had to today. Hands down the best and only place where I go to rent for personal and business. I had a great experience and even offered a drop-off trip. Definitely recommend having their lower prices compared to other competitors. Cons: I am very happy with customer service and rent. The person who helped me, Ryan was super informative. I wouldn't rent from another place from now on. The place was clean and tidy and the choice of cars was amazing. Tip from Cons: It took more than 2 hours from the time I called the airport because the shuttle was not there to actually get to the place, do the paperwork, and the websites into the car that was safe. The 1st car they were trying to give us didn't have brake lights. The car we finally drove into was dirty inside and 24 hours and drove horribly, but after that long, we just wanted to leave this place. Review from The Pros: Take and Disembark Cons: We had to get three different vehicles to spend their time on my vacation to get three different vehicle reviews from booking was in the closing hour and the location was closed. It's a terrible experience.
